MODEL HEALTH AND SAFETY POLICY FOR SCHOOLS

THE LAW

Health and safety in schools is governed by legislation and associated regulations, which are enforced by the Health and Safety Executive (HSE).

In **community schools, community special schools and voluntary controlled school's** statutory health and safety responsibilities fall on the Local Authority (LA) (as the employer) and on the headteacher and other school staff (as employees).

As the management body, **the Governing body** must ensure that school staff and premises follow policies and procedures set by the Local Authority for health and safety (e.g., reporting accidents, first aid provision), and:

- Implement a health and safety policy and advise employees of it;
- Have a Critical Incident/Business Continuity plan that considers emergency scenarios;
- Ensure, **so far as is reasonably practicable**, the health, safety and welfare of teachers and other education staff; the health and safety of pupils in school and on off-site visits; and the health and safety of visitors to schools, and volunteers involved in any activity on the school site or managed by the school;
- Assess the risk of all activities, both in school and off-site; introduce measures to manage those risks, and tell employees about those measures;
- Ensure that staff are competent and trained (including TeamTeach techniques where necessary) in their health and safety responsibilities; and are actively involved in health and safety;
- Take reasonable steps to make sure that the buildings, equipment and materials are safe and do not put the health of users and visitors at risk;
- Promote and support sensible health and safety management through discussion at Governor or Senior Leadership Team meetings;
- Seek advice and guidance from The Health & Safety Service when required.

In practice, the Governing body may delegate specific health and safety tasks to others at the school.

The Governing body, and Headteacher, must comply with any direction given to them by the LA concerning the health and safety of persons on the school's premises or taking part in any off-site school activities.

In **Academy schools, free schools, foundation schools and voluntary aided school's** statutory health and safety responsibilities fall on the Governing body (as the employer) and on the Headteacher and staff (as employees). Governing bodies may be constituted in one of the following formats:

- An Academy Trust
- The Governing body of a voluntary aided or a foundation school
- The owners or trustees of an Academy, foundation, VA or Free school

The Governing body, as employer, has a duty (as required by The Management of Health and Safety at Work Regulations, 1999):

- Implement a health and safety policy and advise employees of it;
- Have a Critical Incident/Business Continuity plan in place;
- Ensure, **so far as is reasonably practicable**, the health, safety and welfare of teachers and other education staff; the health and safety of pupils in school and on off-site visits; and the health and safety of visitors to schools, and volunteers involved in any school activity;
- Assess the risk of all activities, both in school and off-site; introduce measures to manage those risks, and tell employees about the measures;
- Ensure that staff are trained in their health and safety responsibilities; and,
- Take reasonable steps to make sure that the buildings, equipment and materials are safe and do not put the health of users and visitors at risk.

In practice, the Governing body may delegate specific health and safety tasks to others at the school. **However, the Governing body retains the ultimate responsibility no matter who carries out the tasks.**

THE ROLE OF EMPLOYEES IN ANY SCHOOL

Employees must take reasonable care of their own health and safety, and that of anyone else who may be affected by what they do at work. They must also cooperate with others who have duties for health and safety by carrying out instructions and reporting unsafe practices. The Headteacher, who has delegated responsibility for the day-to-day management of the school, has a role of making sure that the governing body's health and safety policies and procedures are carried out.
