## **Our Ethos:**

‘Everyone in our school community has a right to learn and grow, be treated with respect and feel safe. ## 1. Rationale and Aims

South Somerset Partnership School believes that each pupil has individual and unique needs. We acknowledge that a significant proportion of pupils will have special educational needs or disabilities (SEND) at some point in their school career. Many of these pupils may require help throughout their time in school, while others may need a little extra support for a short period to help them overcome more temporary needs. If these pupils are to achieve their full potential, we must recognise this and plan accordingly. We aim to provide all pupils with strategies for managing their needs in a supportive environment, and to give them meaningful access to the curriculum.

Our SEN policy and information report aims to:

- Set out how our school will support and make provision for pupils with special educational needs (SEN.)
- Explain the roles and responsibilities of everyone involved in providing for pupils with SEND.

## 2. Legislation and guidance

This policy and the SEN information report is based on the statutory [Special Educational Needs and Disability \(SEND\) Code of Practice 2015](#) as well as the following legislation:

- [Part 3 of the Children and Families Act 2014](#), which sets out schools' responsibilities for pupils with SEN and disabilities.
- [The Special Educational Needs and Disability Regulations 2014](#), which sets out schools' responsibilities for education, health and care (EHC) plans, SEN co-ordinators (SENCOs) and the SEN information report.
- [Supporting Children at School with Medical Conditions 2014](#), which sets out schools' statutory responsibilities for the support that pupils with medical conditions should receive at school.

## 3. Definitions

A pupil has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for them.

They have a learning difficulty or disability if they have:

- A significantly greater difficulty in learning than the majority of others of the same age, or
- A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools.

Special educational provision is educational or training provision that is additional to, or different from, that made generally available for other children or young people of the same age by mainstream schools.

The Code of Practice (2015) provides an overview of the range of needs, which is divided into four areas. These areas are;

- Communication and Interaction
- Cognition and Learning
- Social, Emotional and Mental Health Difficulties
- Sensory and physical needs

All teachers are responsible and accountable for the progress and development of the pupils in their class, including where pupils access support from teaching assistants or specialist staff.

Children with a Special Educational Need (SEN) must have their needs recognised and assessed, with appropriate and timely intervention put into place. A graduated response must be implemented. Please see attached document containing the graduated response at SSPS.

### **Disabled Pupils and those with medical needs**

Many children and young people who have SEN may have a disability under the Equality Act 2010 – that is *‘...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities.’* Code of Practice 2015.

At South Somerset Partnership School we educate pupils with both disability and medical needs. South Somerset Partnership School values inclusion and implements health care plans, working closely with medical professionals to ensure our students are able to access and succeed in education. We liaise with outside agencies and co-ordinate education through an assess, plan, do, review cycle.
