TikTok Family Settings

Although TikTok has an age limit of 13, we are aware - as with most social networks - which pupils of all ages use it and its popularity has grown hugely during the two lockdown periods in 2020. TikTok say they've 'taken a number of steps over the past year to improve and enhance our teams, policies, controls, and educational resources.'

They have also introduced 'Family Pairing' which allows a child's TokTok account to be linked to their parent's, giving them control over Screen time, Content and Messaging.

Netflix Parental Controls

Many families use Netflix as one of their main sources of viewing, with adults and children enjoying the choices available and being able to watch what you want, when you want.

For parents and carers, it's vital to supervise what our children are watching and use the settings available to reduce the risk of them coming across inappropriate or upsetting content.
